Discussion

Chris Milia reported that West Bloomfield will tape Oakland County Executive Brooks Patterson's State of the County Address. He will make DVDs available and suggested a \$50 contribution to help cover expenses. He would like to encourage program sharing and cooperation in the use of resources for obtaining such programming, and suggested that communities air the program at the same time for maximum benefit.

Each community showed clips of programs they have produced. There was discussion about each, resulting in a lot of ideas as well as awareness of each community's operation.
